Agenda:

Wednesday, May 23, 2018

10:00 - 10:15  Registration
JMG - What the research says about kids and gardening.

10:15

Session 1 – What is JMG Curriculum All About?
The Junior Master Gardener curriculum engages children in novel, “hands-on” group and individual learning experiences that promote a love of gardening, develop an appreciation for the environment, and cultivate the mind. Learn more about the resources available through the JMG program.

Session 2 – Learn Grow Eat and GO!
LGEG grows good kids through an interdisciplinary program combining academic achievement, gardening, nutrient-dense food experiences, physical activity, and school & family engagement.

Session 3 - 3 Make and Take  Plant Science activities.

12:00

Lunch will be provided including a recipe we will prepare from the Learn Grow Eat and Go curriculum.

1:00 - 3:30

Session 4 - Creative Gardening Ideas
Ideas for planning and building your garden. Theme Gardens, Raised Beds, Extended Seasons, Straw Bales, Cattle Panel Cold Frames and much more.

Session 5 - Junior Master Gardener an Entrepreneurial Project
What now? Turn your passion into profits. Added value, displays, and customer service, learn more about marketing your garden produce and flowers.

Session 5 - Pollinator Partners Study
The relationship between plants and animals is one that can really draw youth into gardening. Bees, birds, butterflies, there are so many animals that rely on plants and plant that rely on them. In this session we will explore some of these relationships closer and give you activities to engage both the animal and plant lovers in your group.
