2021 DRAINAGE WORKSHOP

MARCH 9-11, 2021
Farrall Ag Eng Hall, Room 106
524 S Shaw Ln, East Lansing, MI 48824

- Learn drainage design concepts with hands-on exercises.
- Learn about installation tips, safety, legal considerations, and maximize annual return on investment with a user-friendly tool.
- Learn about controlled drainage design and its impact on water quality and crop yield.
- Gain hands-on experience with drainage design software.
- Intended for farmers, landowners, contractors, technicians, and whoever is interested in learning about drainage concepts and drainage design for crop production and water-quality protection.
