EXTENSION SPEED MEETING
Strengthening Partnerships Around PFAS & Other Water Contaminant Issues
Thursday, February 7, 2019, from 10 a.m. to 1 p.m.

Location: Michigan State University, 1129 Farm Lane, 162 Food Safety Building, East Lansing, MI 48824.
Can’t attend in person? Videoconferencing is available but be sure to register for connection details.
Complimentary lunch served at the Food Safety Building for those who register.

This MSU Extension Speed Meeting offers faculty, government employees and researchers who conduct water research or work on water-related issues the opportunity to connect with educators face-to-face and explore collaboration possibilities. This two-hour session, followed by a complimentary working-lunch, features a rapid series of 5-minute presentations on water-related programming by a variety of expert educators and researchers followed by a 5-minute Q & A time. A working lunch will provide time to discuss follow-up questions and exchange contact information.

Learn About MSU Research and Extension Activities and Potential Collaborations on PFAS and Other Water Contaminants

Extension educators can support your research and work agenda as:

- collaborators in conducting community-based research throughout the State of Michigan
- sources for recruitment into your studies
- sources for program interventions that can be included in your studies
- additions to the interdisciplinary efforts needed in community-engaged research
- disseminators of your results to diverse audiences

-----------------------------------------------------------------------------------------------------------------------------

Join us for lunch and a chance to garner information that can support your work!

Registration Link: https://events.anr.msu.edu/waterspeedmeeting/

Space is limited | Registration requested by Friday, January 18, 2019
